- **Marketing Agent Affiliation Program:** Marketing Agent Options Available.

## STAND OUT FROM YOUR COMPETITION

with Credit Systems Design's  
UltraAMPS System

### UltraAMPS Auto-Upgrade

This valuable new feature allows you to configure your customer so that any 1 or 2 vendor merge report ordered is automatically upgraded to a tri-merge based on a configured score threshold. This feature provides benefits that you can offer to your customer in the form of increased ordering flexibility and cost reduction opportunities.

For additional information on this exciting new UltraAMPS product, please contact us toll-free at 877-909-AMPS extension 260 or email us at [ampsinfo@ultraamps.com](mailto:ampsinfo@ultraamps.com). 

### Merge Reports with AVM Value and Confidence Score

Merged reports may now be enhanced to include Automated Property Value and Confidence Score for any of our supported AVM Models. The customer can be configured to always receive the AVM or only receive it if the middle score exceeds a defined threshold. The customer will receive this data as part of the Report Summary and the full AVM is available in AMPSPink. 

### Credit Assure Access Based on Score Range

We have increased the flexibility of this product by providing the option to only order Credit Assure based on the merged report achieving a predefined score range.

Please contact CSD Technical Support to begin offering this cost-cutting feature to your customers or email us at [ampsinfo@ultraamps.com](mailto:ampsinfo@ultraamps.com) for any additional information. 

### AMPSPink Custom Forms Now Available

AMPSPink now provides your customer the ability to incorporate custom Adobe Acrobat forms to generate their own documents and populate them using the fields contained in AMPSPink. Your customers may also create custom fields within AMPSPink that can be used in the generation of these forms and documents.

Power. Simplicity. Value.

## Update on the Latest Interfaces Available on UltraAMPS

CSD continues to develop additional Interfaces to the industry's leading service providers. In addition to our Direct Connection Programs for Fannie Mae, and Wachovia Bank, the following companies represent the latest additions to our list of Supported Interfaces.

These new Lender and Loan Origination Interfaces were recently made available on UltraAMPS:

- **Countrywide**
- **First Horizon/First Tennessee**
- **Freedom Mortgage**
- **Provident Bank**
- **Sun Trust Mortgage**
- **Wells Fargo**
- **More on the Way!**

With the consolidation of many of the industry's Wholesale Lenders, visit our Web site at [www.creditsystemsdesign.com](http://www.creditsystemsdesign.com) and click on the Affiliates link for an updated list of our supported Interfaces. 📖

## Marketing Agent Affiliation Program Available

Credit Systems Design's mortgage reporting division, CIBMS, offers a cost-cutting Marketing Affiliation Option. Now more than ever, this option can help in managing your bottom line.

Please contact CIBMS at [ampsinfo@cibms.com](mailto:ampsinfo@cibms.com) for details and to see if this Marketing Affiliation Option is right for your company. 📖
